

UNIVERSITY
BULLETINSNotes on Classroom Sub-
jects in College
on Hill.

The university commencement address of this year will be delivered by Adolph Casper Miller, professor of political economy and commerce in the University of California. Professor Miller was born in San Francisco in 1866; he graduated from the University of California in 1887 with the degree of A. B. As an undergraduate, he won distinction in college literary pursuits, and in economic studies. In 1888 he received the degree of A. M. from Harvard; in 1889-1900 he was instructor in Political Economy in Harvard; in 1890-1891, Lecturer in Political Economy in the University of California; in 1891-1892, Associate Professor in Political Economy and Finance in Cornell University; in 1892 he was called to the University of Chicago as Associate Professor of Political Economy and Finance; in 1893 he was made Professor of Finance in the University of Chicago; in 1892 he returned to the University of California as Professor of Political Economy and Commerce. He is a member of the American Economic association, the Political Economy club of New York, etc. While a resident of Chicago he took an active part in many movements of a public character.

An important change has been made in the elective system for students in the department of arts and science. Instead of the present free elective system, a system of group electives has been adopted.

The executive committee of the Academic League met recently in the president's office. The preliminaries for the coming meet were arranged. The faculty committee on literary exercises and debating were appointed, as heretofore, to arrange for the declamation contest. This contest will be held on Friday evening, May 15. A matter of considerable interest, which was discussed at length is the plan to

THE PRESIDENT AMID FAVORITE SCENES

YOU ARE ALL
TALKING ROTComstock Loves Tonopah
and Tonopah Re-
ciprocates.

Nothing is more disgusting to all Nevadans, and that portion of the world in general that reads newspapers published in this state, than the row that the Comstock and Tonopah are keeping up. The papers in Butte city are not saying much about the Comstock and nothing that is favorable, while the three dailies up on the hill are doing everything in their power to belittle Tonopah. One of the Comstock papers said last evening that there was not a twentieth the amount of ore in the Tonopah mines that was claimed for them, and not long ago another Virginia paper spoke of the "Tonopah Bubble."

The Comstock is all right. It is one of the greatest mining camps the world has ever seen, and so is Tonopah, with the exception on that the latter lives in the future, while the former reflects upon a glorious past, although still hopeful of better days.

Stop this rot. Let Nevadans put for Nevada. The paper that tries to boost its home town by ridiculing and minimizing the resources of other camps is a back number and a dolt. Get sensible, all ye scribes. Root for Nevada. Your present methods, and we also mean you, Austin Reville, are disgusting. Dogs in the manger can't thrive on hay, but should be allowed no other diet.

Social Dance

Last evening Miss Hastings gave a party to her pupils in Wheelmen's hall. Afterwards a social dance was given by the Reno Wheelmen's club band. There were a large number of people present and they spent a very pleasant evening dancing and listening to the excellent concert.

For Good Roads

Next Wednesday evening the regular meeting of the Reno Wheelmen's club will be held. One of the principal topics of discussion will be "Good Roads." Several speakers will give the club pointers on how this end may be accomplished.

The president is coming to Nevada. That is his privilege and ours. He comes not as the possible Republican nominee for re-election, but as the head of this republic, the potentate of the greatest nation in the world, and as such he will be greeted by the loyal sage-brushers.

There is nothing of froth and silliness about some words regarding our president, whom we all respect, not only for the honored position he occupies, but for the purity and strenuousness of his life, for what he has done and what he would like to do for his fellow men.

The Journal is not bound so tightly by political affiliations that it withholds praise for whom praise is due. This is an American president, and we extend both hands in greeting to him.

Hurrah for Roosevelt! May his stay in Nevada be a pleasant one, and may the memories of his visit to this state cause him to return, either as chief executive or plain citizen.

Herewith the Journal produces an hitherto unpublished picture of Mr. Roosevelt and the wild western scenes in which he delights.

They are self explanatory and are familiar sights to all Nevadans who have spent any time on the range. They recall the lines of the president's favorite poem:

"I want free life and I want fresh air,
And I sigh for the canter after the cat-
tle;

The cracks of whips like shots in a battle;

The medley of hoofs and horns and heads

That wars and wrangles and scatters and spreads,

The green beneath and the blue above
And the dash and danger and life and love."

add debating, after this year, to the literary work of the league. This interest in debating just now has grown out of the contest held last month between the Reno High School and the University High School. This was the first inter-high school debate ever held in Nevada. It is proposed now to arrange a series of debates among the high schools. The final debate in this series, to determine the state championship, will be held at the time of the annual meeting of the league. Details of the plan are to be worked out later.

Plenty of Money

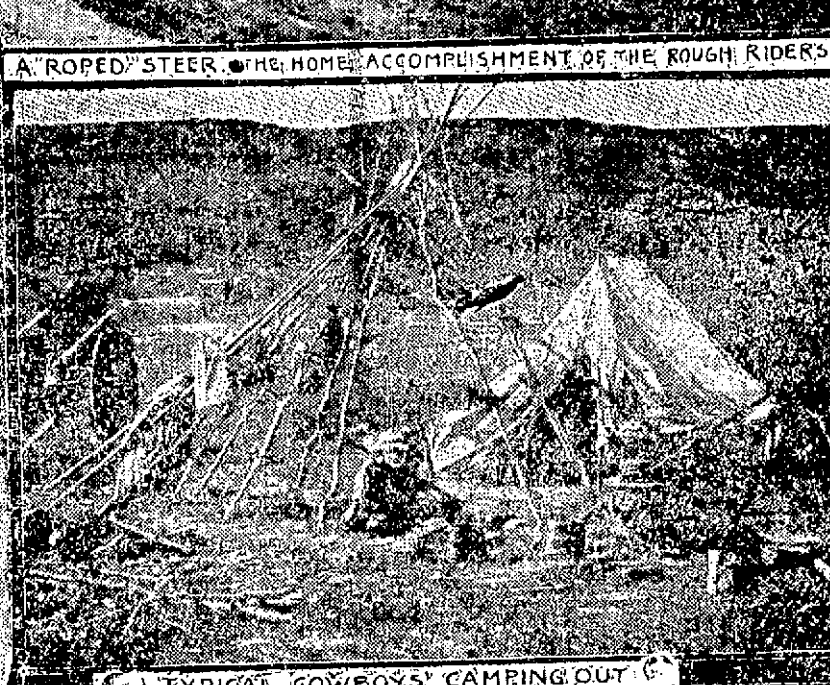

The committee that is soliciting subscriptions toward the fund to provide entertainment for President Roosevelt yesterday secured \$600. The business men and citizens generally are responding liberally and many of those who put their names for a goodly amount said to the committee: "If you are short, call again."

Better Out of Office

If all that is said of Eugene Howell's mining deal in the eastern part of the state is true, it is a good thing for him that he was not elected to succeed himself as secretary of state. Since retirement from office he has been at work promoting a mining property in White Pine county and rumor has it that he has been offered a quarter of a million dollars for his mine.

rate arrangements for the reception and entertainment of President Roosevelt next week. The program in some respects will resemble that carried out at the time of the late President McKinley's visit. The latter, however, came to attend the launching of the battleship Ohio and this event was necessarily the chief feature of the program. With the visit of President Roosevelt the case is different and the entire time of his stay in the city will be given over to features of entertainment. From preparations now in progress it is safe to assert that the city will be illuminated as never before. Great arches of artistic design will span the chief thoroughfares of the business district and the streets everywhere will be strung with vari-colored electric bulbs.

There will be military parade on a gigantic scale and a big reception so that all may see the president. On Wednesday the speech to the people of California will be given and the occasion will be marked by a magnificent display of fireworks. The Grand Army will hold their annual encampment here during the week. This will bring many visitors to the city from various part of California and Nevada. Passenger officials of the railroads forecast one of the largest crowds ever entertained in San Francisco.

Church Workers in Conference

WASHINGTON, D. C., May 7.—The national convention of the Methodist Protestant denominational Christian Endeavor society begins in Washington this evening and, judging from the excellent program arranged and the large number of visitors on hand, the gathering will be one of the best ever held by the organization. Those in attendance come from all parts of Pennsylvania, Ohio, Maryland, Virginia, West Virginia and several other states. Prayer and praise services, sermons and addresses by well known divines and others, reports of officers and committees, and discussions of the missionary and other work carried on by the society make up the program, which covers three days.

Farewell to Bishop Glennon

KANSAS CITY, Mo., May 7.—As a testimonial of their esteem and affection the Roman Catholics of the Kansas City diocese will give a banquet at the Midland hotel tonight in honor of Bishop J. J. Glennon, who is about to take up his new duties as Coadjutor Archbishop of St. Louis. The banquet will be a notable affair of its kind, covers being laid for more than 500 guests. Those who have accepted invitations to respond to toasts include Bishop Hogan of Kansas City, Congressman Cowherd, Mayor Reed and others of prominence.

Clarence Forbes to Meet Reagan

ST. LOUIS, Mo., May 7.—The feature of the West End club box show tonight will be the bout between Clarence Forbes of Chicago and Johnny Reagan of this city. The two will box at 130 pounds, weigh in at 3 o'clock this afternoon. Reagan is regarded as one of the best youngsters of his class and it is the general opinion among followers of the game that Forbes will have to be at his best in order to inflict a defeat on the St. Louis lad.

International College of Scientists

WASHINGTON, D. C., May 7.—Professor Simon Newcomb, of this city, sails on the Deutschland today to begin arrangements for the international congress of scientists, to be held next year during the exposition at St. Louis. CHARGE WAS NOT PROVEN

G. H. Hadley Had No One Appear Against Him.

Several days ago a charge was preferred against George H. Hadley, of this city, that, if proven, would have resulted in the defendant being incarcerated for a long term of years. It was an unmentionable offense and the persons who swore to the charge were summoned into Justice Nash's court yesterday to substantiate their allegations.

It happened, however, that no direct evidence was adduced and the justice brought the proceedings to a halt for the day. The defendant was bound over on his own recognizance and the case will be reopened.

This is a matter that should be sifted to the bottom. Either George Hadley is guilty of an offense that should cause him to be shunned by all right thinking people, even after he expiated his crime by a long term of imprisonment, or he should be absolutely cleared of the charge. If found not guilty by the despicable status of affairs known as "not proven," Mr. Hadley will remain for life under a cloud.

The Journal insists that the case be given a most rigid hearing and either the guilt or innocence of the prisoner proven. If guilty, hanging is too good for him, but if innocent he should be given a full and complete acquittal, such as would restore to him his reputation, which a non-committal verdict shall have shattered forever.

SERIOUSLY INJURED

Woman Shot Wednesday Night in Dangerous Condition.

Anna New, the woman who was shot Wednesday night, is more severely injured than was thought at first. Twenty shot entered her body and she was very feverish yesterday as the result of the wound. The district attorney feared that blood poisoning or some other complication might ensue and went to her house yesterday with a stenographer and took her statement.

It develops that there is more to the story of the shooting than could be told in the Journal yesterday morning. It is believed that another person received some of the shot, but he hasn't reported the case to the police.

"Old Benny" Richardson is still confined in the county jail. No charge has yet been placed against him. District Attorney Pike is awaiting the result of the woman's injuries.

RENO IS ON THE BOOM

Some Facts and Figures Regarding Development.

Few people realize how rapidly this city is growing. The Journal has secured several facts and interviews that will shed a little light upon the subject. Speaking of light, Manager Bechtel, of the Nevada Power, Light and Water company, yesterday stated to a Journal reporter that two years ago there were only 600 incandescent lights in use in Reno. Now there are over ten thousand. At that time there was not an electric meter in use and now there are six hundred, with more orders than can be filled. The increasing use of water has also given the company an opportunity to figure on the growth of the town.

Captain Cox has just returned from Carson. While in conversation there he stated that there are one hundred new buildings in course of construction here. Some one combated the statement and the captain wagged the expenses of a trip to Reno including the rental of a carriage to drive about the city in order to prove what he asserted. After some little argument the bet was not taken, because a Carsonite present, who had just returned from a visit to Reno said that the Carson man would surely lose.

The cost of these hundred buildings would be difficult to estimate. Average ninety of these buildings at \$500 each and you have \$45,000. Add to this the Elks, home, Riverside north wing, Bigelow & Thomas building, Cheney building, Parish house, Overland stable extension, additional stories to the Monarch, Louvre and Oberon saloons, addition to Dormio building and a score of other large bricks that might be mentioned and the sum total is well above a quarter of a million dollars. Some estimates place the amount at half a million dollars. When it is remembered that the building season has but begun it does not seem unreasonable to figure the cost of the buildings to be erected in Reno this season at a million and a half dollars.

A good test of the increase in population is this. Wager an old-timer that he cannot stand on a street corner and name one half the people who pass. The fact is he will be unable to locate one fourth of those who pass by. Two years ago everybody in Reno knew everybody else.

Here is one of the best methods to figure on of all. One year ago there were 1,297 census children in this city. Census Marshal Winters is well along with his enumeration and he says that the children this season will number between 1,450 and 1,500. Take it that there are 1,475. This is an increase of 178 or nearly fifteen per cent. Figuring seven population to one census child, a low estimate for a town of Reno's cosmopolitan make-up, and the population is the city may safely be reckoned as having reached the ten thousand mark.

The new city government takes hold of the reins at an auspicious time. They have only the present depleted treasury to stand in their way and this can be easily overcome by a bond issue. Progress is now the watchword of Reno. Watch our smoke!

A Huge Catch

Spread out on some papers on the floor of Butler & Morton's store yesterday evening was an exhibit of fish that would have made old Izaak Walton rise from his grave if he had heard of it. They were twenty-one magnificent native trout lured from the Truckee by Flung Hewlett and Plugger Bill Upson. They weighed over one hundred pounds, an average of five pounds apiece, although some of them would tip the beam at twice that weight.

Argument Progressing

At 4 o'clock yesterday afternoon Attorney Chantz concluded his argument in the case of Longabaugh & Winters vs. Twaddle Bros. The case was continued until 1 o'clock this afternoon, when General Torreyson will begin his argument.

Lots of Snow Left

The wagon roads across the Sierras will open for travel late this season. There is still a large amount of snow on the summit and it is frozen hard. The outlook of water late in the season is better than it has been for a number of years.

Return Call

The Virginia senior class will probably visit Reno on the 22nd. The local seniors will give them a hospitable reception.

THE GREAT ROAD RACE

Prizes and Officials and Other News of Event.

The members of the racing board of the Reno Wheelmen's club have nearly completed their canvass of Reno to secure funds for the purchase of prizes for the winners of the road race to be held Sunday evening. The business men responded very liberally. The club put up \$30 and the balance of the money was donated by citizens.

The first and second time and the first and second place prizes were purchased with the money thus collected. The other prizes were given by merchants. All the prizes will be placed on exhibition today in A. Nelson's window.

The course that will be ridden will be around Glendale, a distance of about ten miles. The start will be from R. W. Parry's fivory stable at noon. The finish will be on Virginia street south of the track.

Up-to-date there have been forty-five entries. Entries close at 7:30 this evening. Names should be left at A. Nelson's store. As there are so many entries and the prizes are so valuable the race is liable to develop some new material for the relay team.

The total value of the prizes will be nearly \$300. More interest is being taken in this road race than any hitherto given by the club.

Following are the prizes:

Time Prizes

First—Solid gold watch.
Second—Opal ring.
Third—Pair Palmer tires, box cigars.

Place Prizes

First—Beautiful diamond set snake ring.
Second—Gold watch.
Third—Pair tailor-made trousers and ebony toilet set case.
Fourth—Tailor-made silk vest and swimming suit.
Fifth—Silver-mounted silk umbrella and two suits underclothes.
Sixth—Solid gold cuff buttons and box cigars.
Seventh—Beautiful rosewood chair and cigars.
Eighth—Stetson hat and Havanas.
Ninth—Silk shirt and straw hat.
Tenth—Stetson hat and handkerchiefs.

Eleventh—Bicycle lamp and reel.
Twelfth—\$5.00 merchandise order.
Thirteenth—Set military brushes, mirror and case.
Fourteenth—Pair shoes.
Fifteenth—Gent's wallet and glass water set.

Following are the officials:

Official referee, Jack Rafferty; starter, E. L. Warden, judges of finish, King Ryan, Fred White, Ed. Shaver, H. J. Thyes, Prof. Brandon; timers, Wm. Webster, R. B. Hawcroft, C. P. Ferrell, R. C. AN EASTERN YARN.

The Journal Doesn't Guarantee the Truth of the Story.

Governor Sparks of Nevada would be known as "Silent John" if he lived in the east. Last fall he electioneered in the desert state from a stage coach. He "made" Carson, Virginia, and Tonopah. After a splendid reception at that great mining camp, where his speech consisted of just thirty-nine words, his election was conceded by his fellow-travelers on the coach. At daybreak, while yet 200 miles from Reno, the candidate remarked:

"I've got \$1,400,000 invested in this state, and I began life just after the civil war splitting rails in Texas for \$15 a month and my board."

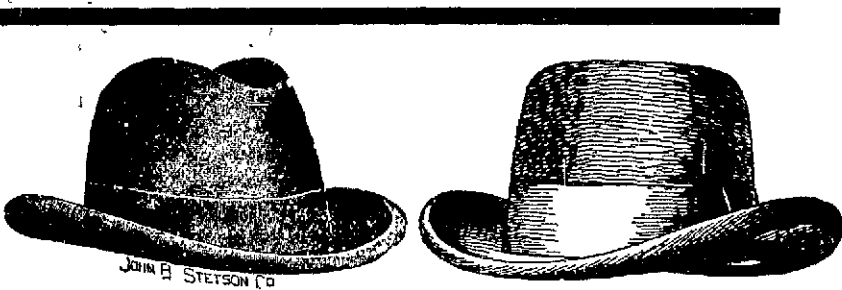

A companion on the journey asked the "Cattle King" for some pointers to young men on the best way to attain success. Governor Sparks pondered for a few moments and then said:

"Be a little bit cuter than the other fellow!"—New York Times.

Teamster Crushed to Death

Len Rager, teamster for the White Horse ranch, was accidentally killed on the road between McDermitt and the ranch last Monday. The accident occurred on a hill where it was necessary to take the wagons up one at a time. This had been done and Rager went between the wagons to couple them together. In some manner the tongue of the trail wagon missed the coupling horn and the one in front and the two crushed together. Rager, who was in a stooping posture, was caught between the wagon beds and his head was crushed, killing him instantly.—Humboldt Standard.

BUSINESS CONDITIONS AND MONEY SUPPLY

It is now officially stated that our per capita of money in circulation is \$29.58, the highest point ever reached. If this is the fact it very strongly supports the contention of those who advocated the restoration of silver upon the ground that more money was needed, for it is certain that with an increased volume of money there has been an improvement in business conditions. That the latter has resulted from the former is a reasonable and logical conclusion, unless some other cause for the favorable change can be indicated. No serious and well sustained attempt to do this has been made.

Some have urged that the increase of the money supply has been too small to produce results so large, and that our prosperity has been mainly owing to our immense export trade. Neither of these claims seems to have been very well considered.

In the first place it must be remembered that it is not the total amount of money in circulation that effects prices and business conditions, but the amount in actual circulation. When the increase of new money is not sufficient to keep pace with the increasing requirements of business the effect is to depress prices, which means smaller profits and in some cases no profits at all. This in turn means that money will be withdrawn from active business and pass out of circulation, which will lower prices and check business still more. So conversely when during a period of such depression there is a substantial increase of new money supply the first effect is to check the downward movement of prices and perhaps give them an upward turn. This increases profits and induces the return of hoarded money to the channels of trade, thus swelling the volume of money in circulation still more.

It should be understood in our treasury reports all of the money not locked up in the treasury vaults is supposed to be in circulation. No attempt is made to figure on the amounts that are hoarded away and doing no more good than if they were at the bottom of the sea. Hence, the new gold discoveries have not only operated directly to increase the total stock of money, but indirectly to bring large amounts of old money out of hiding and into active business. When this takes place the volume of commercial credit is also increased and all of these things together make up what may be termed the circulating medium.

From this it will be seen that the per capita of money as given by the treasury officials, (who, by the way, make no allowance for the money that has been lost or destroyed since 1873,) does not by any means cover the whole question of money supply. Even as here explained it falls short of fully exemplifying the great monetary principle involved in the quantitative theory. The amount of business, the quantities of commodities to be exchanged, the character of the business and the manner in which the money is distributed and used, all have an important bearing. A few dollars per capita may be enough to transact the business of China according to Chinese standards, but it would be absolute ruin to us.

The claim that our export trade is the main cause of our prosperity rests upon a narrow view of the business situation. The prosperity has not been confined to the United States, but has existed in other countries also, and notably in those which have taken the major portion of our exports. In other words the countries that have been the largest buyers have been quite as prosperous considering their resources as have those which have been the largest sellers. As an economic and industrial fact, the prosperity wave struck England, France and Germany before it did the United States. It is perfectly clear that had England not been prosperous she would not have increased her purchases in this country so largely.

All this goes to show that the cause of the better times of recent years must have been general in character, affecting many different countries alike. The only cause of the kind that can be discerned is the increase of the money supply, mainly through the new gold discoveries. This gold, going wherever the currents of trade have carried it, has necessarily affected business conditions in all gold standard countries. Had the increase been in silver coined at a fixed ratio with gold the effect would have been the same. If in addition to the new gold brought into use, silver had been fully restored there is no room for reasonable doubt that the improvement would have been still greater.

A STOCK ARGUMENT EXPLODED

The latest news from China strongly confirms The Journal's statement that while Russia talks smoothly and diplomatically in the Manchurian matter, she conceals nothing that is material, and is determined to strengthen her position in China. Japan, we are told, is really wrought up and is talking war. We are not, however, so much concerned in what Japan may or may not do as we are in the attitude of our own government.

There can be no earthly doubt that the permanent holding of Manchuria will be the first step in the dismemberment of the Chinese Empire. When after much hesitation President McKinley finally determined to hold the entire Philippine archipelago, the course was defended by many upon the ground that those islands were mere "stepping stones to China," and that we must keep them so that when that great empire was carved up and divided we would be on hand to get our share. It was insisted that

interests in that quarter.

Now, after expending many hundreds of millions in treasure and wasting many thousands of precious lives, our information from Washington is to the effect that the action of Russia is quite satisfactory to the American government, and that all we want is the assurance that none of the ports now open will be closed to us. What a coming down is that!

The Journal does not wish to be understood as urging that the United States should take any part in the dismemberment of China, or seize any of its territory. We have already bitten off about as much of colonialism as we can comfortably chew. Nor do we suggest any warlike interference with plans of Russia as long as our vested commercial rights are not infringed, a thing very unlikely to occur. Our only purpose is to point out how completely one of the stock arguments in favor of holding the Philippines has been exploded. Russia is pursuing her traditional and inexorable policy of indifference to our presence in the Philippines as she is to our sovereignty in Porto Rico.

DR. ST. CLAIR MCKELWAY, editor of the Brooklyn Eagle, declares that the nomination of Grover Cleveland is demanded by the influential public sentiment, both south and north. Up to date we haven't noticed any loud clamor for Grover out this way. We don't believe in grave robbing.

THE socialist officials in Anaconda who failed to qualify within the time required by law probably wanted to show their belief in the brotherhood of man by giving somebody else a chance to fill the offices.

THE fast cure says the Herald is becoming quite popular in Salt Lake. Experts claim that it reduces the grocery and meat bills in a marvelous fashion.

THE fact that titles in Harlem have been declared void will have no effect on the foreign titles purchased by some of the New York girls.

Outdoor Relief and Vagrancy
ATLANTA, Ga. May 7—A wide range of subjects were discussed at the sessions of this, the first business day of the National Conference of Charity and Corrections. The arrival of a number of belated delegates increased the attendance considerably over that at the opening of the gathering last night.

Upon assembling shortly after 9 o'clock this morning the conference received and discussed an interesting report presented by Chairman C. L. Stonaker of Denver on behalf of the standing committee on county and municipal institutions outdoor relief and vagrancy. The problem of vagrancy received particular attention and various interesting views on its solution were presented by Dr. William H. Allen, secretary of the New York Society for Improving the Condition of the Poor, and others.

This afternoon the conference divided into sectional meetings for the discussion of juvenile reform, sanitary inspection, county and municipal institutions and various other questions of public importance. This evening the conference will take up the report of the standing committee on state supervision and administration of charities and corrections, of which Prof. Blackmar of the University of Kansas is chairman.

California Welcomes Roosevelt
REDLANDS, Cal., May 7—President Roosevelt and party today had their first taste of the hospitality of California. Governor Pardee and the California congressional delegation met the president here, in the beautiful San Bernardino Valley, at 9 o'clock this morning and welcomed him to the state. It was here that the president got his first idea of the wonderful treat that awaited him. Though an avenue lined with palms and Venetian masks he drove over beds of roses beneath a triumphal arch of flowers and fruit to the Casa Loma hotel on the balcony of which the exercises took place. A short drive through the orange groves and parks followed. All along the route of the drive women showered the president and his party with flowers and through the streets they bombarded him from windows until the air was a perfect maze of color. After three pleasant hours spent here the president special accompanied by the California party resumed the journey to Los Angeles. Brief stops are scheduled en route at San Bernardino and Riverside.

N. W. Prohibition Meet
SIOUX FALLS, S. D., May 7—Prohibitionists of South Dakota and adjoining states are rounding up here for a two weeks conference the purpose of which is to discuss ways and means for spreading and making more effective the warfare against the liquor traffic. Several speakers of note are to be heard at the opening session which takes place this evening. Tomorrow prohibition in colleges will be the topic and in the evening there will be an oratorical contest in which representatives will be heard from the prohibition leagues of Northwestern colleges.

Cane Growers Meet in Macon
MACON, Ga., May 7—The convention of cane growers of the United States, which opened in Macon today, is the largest gathering of its kind ever held in this country. Louisiana, Florida, Georgia and other states where the industry flourishes are well represented and in addition there are many agricultural authorities from Washington and elsewhere in attendance. The sessions are to continue through tomorrow. Secretary of Agriculture Wilson is to address the convention on the subject 'The Relationship of the Agriculture Department to Southern Agriculture.' Dr. H. W. Wiley of the United States Department of Agriculture will speak of the history and development of the beet sugar industry. Dr. W. C. Stubbs, director of the Louisiana experiment station, is down for an address on 'Cultivation and Manufacture of Sugar Cane in the United States and Foreign Countries.' Other persons of prominence who are expected to address the convention are Governor Terrell of Georgia, Senator A. S. Clay and Chancellor W. B. Hill of the University of Georgia.

Alabama T. P. A.
MONTGOMERY, Ala., May 7—The state capital today experienced an invasion of knights of the grip in the persons of several hundred delegates to the annual state convention of the Travelers' Protective Association. At 11 o'clock this morning the visitors assembled at the Elks Home and listened to an address of welcome by Mayor Joseph. A brief business session was held this afternoon, followed by the first number of an interesting program of entertainment arranged by the local post of the order. Tomorrow there will be a barbecue at Pickett Springs and various other amusements. The order in Alabama is in a flourishing condition as is evidenced by the large and representative attendance on the present gathering.

SUMMONS

In the Second Judicial District Court, of the State of Nevada, in and for Washoe County. Emma Hamilton vs. William Hamilton. The State of Nevada sends to William Hamilton, Greeting.

You are hereby required to appear in an action commenced against you as defendant by Emma Hamilton as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of day of service), if served in said county or twenty days if served out of said county, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The action is brought to recover a judgment and decree in the above entitled court to dissolve the bonds of matrimony now existing between plaintiff and defendant, upon the grounds of desertion, failure to provide and extreme cruelty, as follows, to-wit: That on or about the 28th day of December 1901, the said defendant disregarding the solemnity of his marriage vow willfully and without cause deserted and abandoned the plaintiff, and ever since has, and still continues so to willfully and without cause desert and abandon said plaintiff and to live separate and apart from her without any sufficient cause or any reason and against her will and without her consent.

That the defendant for more than one year last past has willfully neglected to provide for plaintiff the common necessities of life, having the ability so to do, and has compelled plaintiff to live upon the charity of friends. Notwithstanding, he is abundantly able to support her, and is worth as this plaintiff is informed, and believes about the sum of seventy-five dollars, and is in the constant receipt of wages sufficient for their joint support from his daily labor, to-wit: About sixty dollars per month.

That on or about the 5th day of August, 1901, at the town of Winnemucca, County of Humboldt, State of Nevada, the said defendant without any just cause or provocation whatsoever, placed a loaded revolver to this plaintiff's left temple then and there threatening to kill her.

All of which will more fully appear from the Complaint, which is on file in the office of the Clerk of said Court, at Reno in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I have hereunto set my hand at Reno this 7th day of May A. D. 1903.

CITATION

In the Second Judicial District Court of the State of Nevada, in and for the County of Washoe.

In the matter of the application of Lulu McKissick for the perpetuation of the testimony of T. V. Julien.

The State of Nevada sends greeting to Jonathan J. McKissick, Margaret E. Chandler, Mrs. Ella C. Clinkbeard, G. W. McKissick, Lillie M. Davis, Martha M. Tipton, Mrs. L. C. Selick, John B. McKissick, Hanna J. Wilkerson, H. E. Fugitt, H. H. McKissick, Etta Wilkerson, John Doe, Richard Roe and Mary Moe.

You and each of you will take notice that on the 1st day of May, 1903, Lulu McKissick, as administratrix and as heir at law of B. H. McKissick, deceased, for the benefit of herself and all the heirs of B. H. McKissick, deceased, presented a petition in due form to the Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, wherein it is alleged that you and each of you, and others whose names to the said petitioner are unknown, are threatening to commence suit against the petitioner as administratrix of the estate of B. H. McKissick, deceased, and against the heirs of B. H. McKissick, deceased, for property belonging to them in this state, and praying for an order to examine Thomas V. Julien, and to perpetuate his testimony that the same may be used in all matters pertaining to the property of the said B. H. McKissick, deceased, as will more fully appear by reference to the petition now on file herein and to which you are referred, and that on the 1st day of May, 1903, an order was duly given and made by the Hon. B. F. Currier, Judge of the said Second Judicial District Court, allowing the examination of the said Thomas V. Julien and prescribing the notice to be given.

Now therefore in accordance with the said petition and the order for the examination of the said Thomas V. Julien, notice is hereby given that on the 21st day of May, 1903, at ten o'clock, a. m., at the residence of the said Thomas V. Julien, at 103 West street, in the city of Reno, County of Washoe, State of Nevada, the said Thomas V. Julien will be examined before the Hon. B. F. Currier, Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, in regard to the matters set forth in the said petition, and his testimony there given will be taken down in writing and perpetuated.

And you and each of you and all other persons having or claiming to have any interest in the property of the estate of B. H. McKissick, deceased, and adverse to the heirs of the said B. H. McKissick, deceased, are hereby notified that they may then and there appear and examine and cross-examine the said Thomas V. Julien upon and concerning the matters set forth in the said petition of the said Lulu McKissick.

Witness the Hon. B. F. Currier, Judge of the Second Judicial District Court of the State of Nevada, in and for the County of Washoe, with the seal of said Court affixed, this 1st day of May, 1903.

Rescue

A meeting of the directors of the Rescue company was held Saturday last at which it was decided to sell \$5,000 more of the treasury stock at the prevailing price, 25 cents per share. When the issue had been disposed of, and from the orders coming in it is likely to be closed out within thirty days, all treasury stock will be withdrawn from the market. The company now has funds on hand sufficient to push development for eight months, and at the expiration of that time they expect to have the property at the producing stage. The new hoisting plant, which consists of a fifty-foot gallows frame, 70 h. p. boiler and 45 h. p. engine, is rapidly reaching completion, and by May 5th it is hoped that it will be in successful operation. The double compartment shaft is now down 200 feet in a white porphyry that assays from \$3 to \$4 per ton. It is thought that sinking will only have to be proceeded with but a short distance in this when the pink porphyry will be encountered, and in that ledge matter may be confidently looked for.

Montana-Tonopah

Sinking was resumed in the Montana-Tonopah this week and the main shaft is now down 550 feet. Cross-cutting and drifting still continues at the 500-level, and from the drift some good ore is being extracted. All the available recesses of the mine are filled with sacked ore and to relieve the pressure a large amount of it will be shipped to the smelters at Salt Lake of the Mining and Supply company of Salt Lake City has been at the mine for several days using the shaft and making the arrangements necessary to install an electric drill, which is expected to arrive next week. The drill will be used in the crosscut and drifts and it is stated that it will do the work of several men.

Tonopah-Gold Mountain

Quite a stir was created in town Wednesday by the appearance of a lot of rich ore from the property of the Gold Mountain-Tonopah company at Gold Mountain. The ore was from a new shaft begun on the Midway, where a three-foot ledge outcrops, and assay returns from it gave values of \$58 gold and \$1 silver. On the Monte Cristo, an adjoining claim, a shaft was recently commenced to tap the tunnel which enters the hill below it, and at a depth of forty feet a pay streak, a foot wide, was developed which gave values of \$71 silver and \$45 gold, a total of \$116 to the ton. It is the purpose of the company to make a shipment of this ore as soon as a sufficient quantity can be gotten together. The tunnel in the big hill is now in 500 feet, and there is every indication that it is close to the ledge and big things are looked for almost any day.

Indiana-Tonopah

The new 40 h. p. plant of the Indiana-Tonopah company, the erection of which began three weeks ago, got up steam Sunday for the first time, and the vociferous blowing of its whistle announced the fact in long, pealing blasts. Hoisting began Monday, and everything worked in perfect accord. The company's double compartment shaft is down now about 100 feet, and will be pushed at the rate of three a day till indications point to the proximity of the ledge, when crosscutting will be resorted to.

Ray & O'Brien

During the past three weeks the Ray & O'Brien company has shipped a car load of first-class ore, and another is now being extracted at the mine. Most of it comes from the 200-foot level, where there is a three-foot ledge of ore that carries values of from 80 to 100 ounces in silver and about 40 per cent of lead.

West End

The West End shaft is still working in quartz at a depth of 420 feet. This makes forty feet of ledge so far penetrated, and as yet there is no sign of a lower wall.

Ordah-Tonopah Mining Company

THE ORDAH MINING COMPANY is organized under the laws of the State of Nevada, with a capitalization of 1,000,000 shares of stock. Paid value, \$1 per share, of which 250,000 is vested in "Treasury Stock" for development work.
This property comprises:—EVEN FULL CLAIMS, the "Gold Belt," Nos. 1, 2, 3 and 4, "Wonder" and "East" (ie), Nos. 1 and 2, in Tonopah Mining District, Elko county, Nevada, and situated SOUTH of the Tonopah Mining Co.'s ground. IT IS THE PURPOSE of the Ordah Company's managers to sink a shaft at a point on a line lying south of the MIZPAH LEBDEK. When the porphyry is developed, this shaft, by crosscutting, will open up and develop all seven claims. For the purpose of developing, 50,000 shares of the "Treasury Stock" are offered for sale at 10 cents per share. For further information, application for stock, maps, etc., apply to JOHN J. MORE RAILROAD.

More Light Thrown on a Subject The Journal Has Been Agitating.

T. K. Stewart, the Reno surveyor, who passed through Austin en route to Eureka several weeks ago, returned here Saturday and Sunday continued on his journey home to Reno. Mr. Stewart's course in Eureka was over the line run by the Oregon Short Line surveyors in 1888, and he was engaged in taking the elevation along that line. The survey made by the Short Line in 1888 passed through Austin, and from here to Beckwith Pass, which is the point the Clark road is headed for.

It may be possible that Austin will have a railroad running through, or near by, within the next two years—Austin Reveille.

This is the railroad that is to pass through Carson City and Reno, the probable course of which has been given by the "Journal" several times lately.

Insurance Claim Paid
The Mutual Life Insurance Company of New York, through A. G. Spencer, State Agent for Nevada, recently paid to the estate of the late Dr. B. Lyman, of Reno, Nevada, \$1756, on a policy originally issued for \$1000 by said company.

During his lifetime Mr. Lyman paid premiums on the policy in question amounting in all to \$795.24. The company returned to his estate the face of the policy and \$756, besides in dividends, or within a fraction, of 4 per cent compound interest on the investment made, besides furnishing insurance protection for thirty-six years.

Helping a Good Thing
A number of Reno businessmen have already subscribed toward the Comstock carnival, and all unsolicited. The good people of Virginia may feel well assured that Reno is with them even as the town will stand in with Carson one year hence.

Visiting His Home

A week or more ago the Journal announced with tears in its typewriter the departure of Eddie Lunsford, linotype operator for this paper. The Journal sent him home on a visit to his "folks" prematurely, but he really went last night and will spend a couple of weeks in Marysville, binding up the bleeding hearts that he punctured before his departure for Reno. His big brother, Bill, who operates the Gazette linotype, cannot get married until Eddie returns, because he lent his relative his only dress suit case.

During Mr. Lunsford's absence the Journal's Mergenthaler will be presided over by Harry Quarles, an expert operator who has been employed on the Los Angeles Herald for a number of years.

Oilinghouse Deal

Today a deal will be wound up in this city that means more for this county than anything since Governor Sparks took over the Wedekind mines. The properties involved are in Oilinghouse gulch and are the Slip mine and mill, the Cabin No. 2 mine and the Renegade, with probably a couple of others. The Springfield Mining company is taking over these properties and will at once set out to work them on a big scale. The gold is in Oilinghouse and the Journal hopes that the Springfield people will find more if it than they need.

A Delver for Pelf

Jack Sheehan is looking for gold and finding it. He came up from Oilinghouse yesterday and is trying to get arrested, but his conduct is so exemplary that the cops refuse to take him in. Jack owns a mine out in that camp and he has taken enough out of the hole in the ground to prevent him from worrying where the money is to eventually come to purchase his next pie card. Every printer in Reno looks at him with eyed tinged with the green of jealousy, but Jack is a good fellow and is ready to stake a craftsman to a meal.

Liberty
Satin
Taffeta
Ribbon

ALL the latest shades; creams, white, black, pink, blue, old rose, mals hello turquoise, gaslight and Nile green our 3-1-2 inch liberty satin taffeta. We will display one thousand yards.

This is our regular 25c quality and considered an excellent value at that price.

It makes up very handsomely in bows and dress trimmings. It is very soft and fluffy for making the Anna Held sashes.

New Laces Just Arrived

We pride ourselves on the fine selections and dainty patterns in our laces.

We have some very choice selections of galloons medallions in cream, ecru, white and black.

Cluny laces in wide, medium and narrow, white and linen effects.

Fibre insertions and all-overs to match, in ecru, black and white.

These goods we carry in cheap medium and high grades.
